AKSHAI G L

LIGHTING ARTIST

I am an experienced CGI Lighting and Look Development Artist in the VFX industry, recognized for my keen eye for realism, mood, and cinematic quality. I specialize in creating high-end lighting setups and developing physically accurate materials that integrate seamlessly into complex visual effects pipelines. I am proficient with industry-standard tools such as Maya, Arnold, Nuke, Blender, Houdini, and Photoshop. I also possess a solid understanding of color theory, shot continuity, and look development workflows. I am known for delivering visually striking and technically precise work under tight deadlines while collaborating effectively within production environments.

EDUCATION HISTORY

GOV.College of fine arts ,chennai.

MY WORK EXPERIENCE

Phantom VFX – Lighting Artist | **2022–2024** 3 years of hands-on experience in shot lighting, look development, and production delivery within a studio environment

People Media Factory – Lighting Artist | **2025**
Worked on production lighting shots, delivering quality results in a professional VFX pipeline.
